# **Article Marketing - The Tried And Tested Online Marketing Technique**

In the world of Internet business, it's the companies that can really sell themselves in virtual space, identify and eliminate their competitors, that will really be successful. Online marketing brings with it a whole host of possible ways to reach a marketplace.

The likes of social bookmarking, SEO and PPC are ways that you can promote you and your business online. While all of these things have been tested, and proven to be effective, [article marketing](#) is one of the most popular.

Boosting knowledge and awareness, and doing so with the ideal target market, is the best way for an organization to truly utilize the power of article marketing. It is extremely effective, however it is a technique that can still perplex a fair few, and needs a committed time schedule in order to achieve a significant enough success.

So what is article marketing, how does it operate, and how does this work alongside other online activities and processes?

Pre selling products and services to potential customers is the premise of [article marketing](#). When it comes to marketing a business to the prospective customers, this form of online marketing is by far the best way forward.

There are several advantages that come along with this form of internet marketing. Perhaps the best thing about this traffic technique is that it's a source of free traffic for pre-sales. This is some of the best kind of traffic that an internet business can attract, because the people are already interested in what a particular company has to offer.

People generally write content based around a certain keyword, in an attempt to get ranked highly within the major search engines. While this may be a little perplexing for some to understand, this is the foundation of Internet businesses the world over, as it is actually very simple to implement and apply as online marketing techniques go.

When it comes to potentially sure-fire ways of becoming successful online, asking yourself what is article marketing is the first of many questions on the road to traffic driving success.
